## DETAILED ACTION

### *Election/Restrictions*

1. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

*Group 1: Claims 1-22 are drawn to “computer-to-computer data modifying: compressing/decompressing”, classified in class 709, subclass 247.*

*Group 2: Claims 23-55 are drawn to “computer-to-computer data streaming”, classified in class 709, subclass 231.*

3. The inventions are distinct, each from the other because of the following reasons:
  - Inventions of *Group 1* are related as combination and subcombinations of *Group 2*. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombinations as claimed for patentability, and (2) that the subcombinations has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination (*Group 1*) as claimed does not require the particulars of the subcombinations (*Group 2*) as claimed because to both subcombinations and combination are presented and assumed to be patentable. The omission of specific details of the subcombinations as recited in claims 23-55, in the combination as recited in claims 1-22 is evidence that the patentability of the combination does not rely on the details of the specific subcombinations. The

subcombinations of *Group 2* have separate utility such as “*computer-to-computer data streaming*”.

- Inventions of *Group 2* are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions of *Group 2* have separate utility such as “*computer-to-computer data streaming*”. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required a separate status in the art as shown by their different classification, the search required for *Group 1* is not required for the other *Group 2*, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include and election of the invention to be examined even through the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS ACTION IS SET TO EXPIRE THIRTY DAYS FROM THE MAILING DATE OF THIS COMMUNICATION. FAILURE TO RESPOND WITHIN THE PERIOD FRO RESPONSE WILL CAUSE THE

APPLICATION TO BECOME ABANDONED (35 U.S.C. § 133). EXTENSIONS OF TIME  
MAY BE OBTAINED UNDER PROVISIONS OF 37 CFR 1.136 (A).
